

LOS SANTOS

SPACE WESTERN MUSIC

LOS SANTOS have saddled up their spaceship and are setting off on a mission into the unknown, on a flight far beyond the final frontier to explore new worlds, new sounds, and new rhythms.

Inspired by old science fiction movies and spaghetti western soundtracks and equipped with state-of-the-art technology (electric guitars, transistor organ, accordion, and drums), **LOS SANTOS** build a bridge between rock 'n' roll and rumba, cumbia and country, surf and ska, between Bonanza and Star Trek.

Lucía Schlör - vocals

Joscha Brettschneider - electric guitars

Stefan Hiss - vocals, accordion, organ

Bernd Öhlenschläger - drums
